MOTIV

MOTIV is an exceptional collection of mesh task chairs that boasts a range of features designed for optimal comfort and support. Its distinct contoured backrest is equipped with an innovative adjustable lumbar support system, ensuring a personalized and responsive experience.

With a synchronized mechanism, plush seat cushion, and the added option of soft PU armrests, Motiv offers unparalleled flexibility and adaptability.

The armrests are designed to move and splay both inward and outward, as well as up and down, providing the user with customizable arm support.

This enhances overall comfort and promotes healthier sitting posture throughout extended periods of use. Additionally, the chair features a sleek back frame that perfectly complements its matching nylon base, giving it a modern and sophisticated appearance.
