GIRO MEET

GIRO MEET

Designed By: Oficio

GIRO MEET was created with flexibility at its core. In today's ever-changing work environments, we wanted a table that could adapt just as quickly. Lightweight, mobile and refined, GIRO MEET brings structure to fluid spaces. It supports fast-paced collaboration without sacrificing aesthetic clarity.

The name GIRO, meaning "to turn" or "to rotate," reflects the table's ability to move freely within a space. Lockable castors make transitions effortless, while the clean frame and soft detailing keep it visually light and modern. Whether grouped for workshops or used individually in open zones, GIRO MEET responds to the rhythm of the day.

We designed GIRO MEET to feel purposeful but never static. Its form is considered, its proportions balanced and its finishes carefully curated. With optional in-desk power and a range of shapes and sizes, it works seamlessly across collaborative, breakout and learning environments.

GIRO MEET brings together function, agility and design intelligence. It is a table that does not just fit into a space, it elevates it.

GIRO MEET

GM-R
Top: 1000mm~1200mm Dia
Base: 750mmH

GM-S
Top: 750/900mm x 1500mm ~ 2100
Base: 750mmH

GM-TALL
Top: 750/900mm x 1500mm ~ 2100
Base: 975mmH
