

OVELO

Design Story : By Oficio

It is not a variation of what already exists. It is a new idea. OVELO was designed to bring something truly different to the commercial landscape. At its core is a signature oval-shaped leg profile, a form rarely seen and instantly recognisable. This design detail is not decorative. It is purposeful, defining both the look and feel of the entire table.

Where typical workstations rely on square legs and rigid geometry, OVELO introduces soft structure and visual flow. The elongated oval leg offers a sculptural quality that is subtle, elegant and unmistakably modern. It brings movement and calm to the workspace, setting a new tone for high-performance environments.

From every angle, the leg feels intentional. It supports the table with quiet strength and creates a frame that is both functional and beautiful. The design works effortlessly with a wide variety of finishes and top shapes, making it adaptable without losing its identity.

Performance is built into the design. Power and cable solutions are fully integrated. The frame remains clean and uninterrupted, no matter the configuration. Whether used in open offices, collaborative zones or shared desking, OVELO delivers presence, clarity and lasting impact.

OVELO is for those who want more than function. It is for those who value detail, balance and originality. This is not a table that blends in. It is a piece that defines the space around it.

OVELO BENCH. 2.4.6.8.10
Worktop: 750mm Deep
Width: 1500.1600.1800.2100mm

Full fabric spine screen 25mm thick
