

RONDO

Designed By: Oficio

RONDO was created to reimagine what a sit-to-stand desk could be. Most height-adjustable systems rely on hard lines and rigid structure. With RONDO, we took a different approach. We designed a system that feels softer, more balanced, and more welcoming from every angle.

At the centre of the design is its signature round leg profile. This gentle geometry brings a sense of calm and refinement to any environment. It softens the typical language of workspace furniture and introduces a more human, approachable form without compromising performance.

Beneath the surface, RONDO is built for precision. Dual motor actuators ensure smooth, silent height transitions. The LED display gives users exact control, while integrated safety and cable management systems keep the workspace safe, clean and organised.

Every detail was considered to make daily use feel effortless. From the rounded legs to the seamless power access and cable concealment, RONDO blends technical reliability with elevated design.

This table supports movement, focus and wellbeing. It invites people to feel better in the way they work, while bringing softness and sophistication to the spaces they share.

Product Description

RONDO

RONDO BENCH. 2.4.6.8.10 person

Dual Electric motor Sit and Stand
Worktop: 750mm Deep
Width: 1500.1600.1800.2100mm

Full fabric spine screen 25mm thick

1250mm High From floor Level
1500/1600/1800/2100mm Wide
*fixed shared screen

Aluminium framed screen 30mm thick

1250mm High From floor Level
1500/1600/1800/2100mm Wide
*fixed shared screen

PET wrap around desk screen

480mm above desk
1500/1600/1800/2100*mm Wide
300mm returns – or custom (*Join)
